Wetland Specialists  
Environmental Scientists  
Archaeologists

Fairfax, VA - Paciulli, Simmons & Associates was presented with the 2009 Land Conservation Award for Tree Planting in the single-family residential category for the residential development project of Chadwick located in Great Falls, Virginia. This award was presented by the County of Fairfax Department of Public Works and Environmental Services in cooperation with the Northern Virginia Soil and Water Conservation District and the Fairfax Tree Commission.

As part of continuing efforts to recognize outstanding achievements in protecting our natural resources, Fairfax County Department of Public Works and Environmental Services honors developers, designers and contractors whose projects best demonstrate a commitment to tree preservation and replacement in Fairfax County.

This award was presented to recognize those who have done an outstanding job of replacing trees that were unavoidably destroyed due to development and who have made a commitment toward tree conservation in planning and implementation by planting the most suitable species and as many trees as possible. Planting sites selected to take advantage of energy conservation opportunities were also taken into consideration in this category.

Established in 1744, Paciulli, Simmons & Associates is a multi-discipline engineering firm providing civil engineering, land surveying, landscape architecture, land planning, environmental and archaeological services to public and private clients throughout the Mid-Atlantic Region. Paciulli, Simmons & Associates can be found online at [www.psaltd.com](http://www.psaltd.com).
