Paciulli, Simmons & Associates Wins George Mason University Potomac Science Center Project

Fairfax, VA - Paciulli, Simmons & Associates, teamed with Zimmer Gunsul Frasca (ZGF) Architects, has been awarded the Potomac Science Center project at Belmont Bay in Prince William County. The firm will provide complete civil engineering, land surveying and environmental services.

This new 84,000 square foot science learning facility will consist of an environmental research and education center focusing on tidal freshwater ecosystems, a geospatial research center and a public science center supporting k-12 education. In addition, 106,000 square feet of structured parking will be built as part of this project.

A SWAM certified small business, Paciulli, Simmons & Associates has a very diverse higher education portfolio having performed extensive multi-discipline services on numerous higher educational facilities throughout the Commonwealth of Virginia including George Mason University where they have worked for over ten years on more than a dozen projects. The firm currently holds a term contract to provide comprehensive civil engineering and land surveying services to George Mason University and is currently working as the lead civil engineer on two separate design/build projects at the Fairfax campus for the Northeast Sector Development, Housing VII and VII-C.

Established in 1744, Paciulli, Simmons & Associates is a multi-discipline engineering firm providing civil engineering, land surveying, landscape architecture, land planning, environmental and archaeological services to public and private clients throughout the Mid-Atlantic Region. Paciulli, Simmons & Associates can be found online at www.psaltd.com.
